Nielson leads the reader in a study of two of the most beautiful Old Testament poetic books, both of which deal with universal, basic human quests: for the meaning of life (Ecclesiastes), and the joy of love (Song of Songs). Careful attention to textual form and content combines with personal meditation and application.

Walk into any Christian Book store and your head will spin with the enormous volume of Bible study materials available for women - how can you choose which to use? If you open up one of Kathleen's studies you will be gently led to unpack the scriptures and find yourself sitting at the feet of Jesus and learning of him. With a wonderful balance of truth and application, she helps the journey from head to heart be one

that transforms us. We have enjoyed using this material in our Bible studies for five years, and we look forward to many more titles.
